Full Stack Development *Corpus Data Hub*	2024 – 2025 Calicut, India
BA Mass Communication and journalism *University of Calicut*	2021 – 2024 Malappuram, India
Higher Secondary *MIC Higher Secondary School*	2018 – 2021 Malappuram, India

PROJECTS

E-COMMERCE APPLICATION

- Built a E-commerce web application using React, Node.js, Express, and MongoDB, enabling users to browse, purchase, and pay for products online.
- Implemented core features including product viewing, adding to favorites, purchasing, and payment functionality.
- Ensured seamless user interaction and efficient data management for a smooth online shopping experience.

TASK MANAGER APPLICATION

- Developed a full-stack Task Manager web application using React for the front end and Node.js, Express, and MongoDB on the backend.
- Implemented features for users to create, update, delete, and manage tasks with real-time feedback and efficient data handling.
- Delivered a smooth user experience through responsive design, robust API integration, and seamless task operations.

EXPENSE TRACKER APPLICATION

- Built a fully responsive expense tracker web application using the MongoDB, Express, React, Node.js.
- Implemented user authentication with JWT, income and expense tracking, and interactive data visualization using charts.
- Added functionality to export financial data in Excel format, providing enhanced usability and reporting options.
- Ensured secure API communication, optimized performance, and a smooth user experience across all devices.
